

PROFILE

I am a motivated Computer Science professional with over 2.6 years of hands-on experience in tech support, cloud infrastructure support, performance optimization, and monitoring. I excel in maintaining server environments and optimizing system performance. My expertise encompasses working with various tools, including BMC Remedy, ServiceNow, Zabbix, Active Directory, New Relic, and CheckMK, with a focus on developing scalable solutions that enhance software deployment and operational efficiency.

EDUCATION

Modern Academy Senior Secondary School (ISC)

X – 74%

XII – Science Non-Medical (64%)

Institute of Management Studies UC (Affiliated to Chaudhary Charan Singh University, Meerut)

2019 – 2022

B.C.A. – 74% First Division

Team Lead – IT Event INVENT, College Fest (2020): Led a team to plan and organize the event.

President – Desktop App Club (2021-2022): Oversaw club initiatives to enhance students' skills and knowledge.

Secretary – Desktop App Club (2020-2021): Managed administrative responsibilities and club communications.

WORK EXPERIENCE

Nagarro Engineer

September 2023 – October 2024

- Managed and maintained server images in Azure and AWS, ensuring that infrastructure requests were met within the agreed service level agreements (SLAs).
- Management and monitoring of infrastructure.
- Actively engaged with external clients to provide them with technical support, all while guiding and mentoring junior engineers to help them develop their skills and confidence.
- Managed cloud computing services with an emphasis on IaaS platforms, addressed Active Directory requests, and utilized the Phisher tool for security operations.
- Recorded procedures Proactively tracked system performance and swiftly addressed infrastructure challenges to ensure seamless availability and optimal user experience.
- Teamed up with developers to tackle infrastructure bottlenecks, paving the way for seamless deployments and enhanced project efficiency.
- Actively monitored Kubernetes pods using Grafana and Prometheus dashboards to ensure our applications were performing optimally.
- If any issues arose, I promptly restarted the pods to keep everything running smoothly.
- I have a solid background in utilizing ServiceNow and JIRA for efficient ticket creation, ensuring that every step taken to resolve an issue is thoroughly documented. This approach not only streamlines the troubleshooting process but also enhances team collaboration and communication.
- Ensure smooth operation of resources by performing monthly patching on both Linux and Windows servers. This proactive approach ensures that our systems remain secure, efficient, and fully functional.
- Keeping an eye on Azure's daily backups is essential! I actively monitor the process, quickly troubleshooting any failed backups and ensuring everything runs smoothly. Once any

issues are resolved, I reinitiate the backup cycle to guarantee our data remains safe and secure.

- Website uptime and performance tracking via New Relic Dashboard.

Nagarro Associate Engineer

September 2022 – September 2023

Nagarro Associate Engineer Trainee

April 2022 – September 2022

SKILLS

Cloud Platforms: AWS, Azure (Beginner)

CI/CD & Version Control: Jenkins, GitHub (Beginner)

Containerization & Orchestration: Docker (Beginner)

Monitoring & Logging: Prometheus, Grafana, New Relic, Zabbix

Operating Systems: Linux (Ubuntu, CentOS), Windows

ITSM Tools: ServiceNow, BMC Remedy, JIRA

Scripting: Shell scripting (Bash)

CERTIFICATIONS

- Linux for Beginners – Udemy
- Linux for Intermediate – Udemy
- Linux Explorer – NagarroU
- ITIL Process – NagarroU
- DevOps Certification Training – Edureka (Certification ID: 8346YLJQQ)
October 2024 – December 2024
- ❖ Completed an advanced DevOps course with hands-on projects focusing on automation, continuous integration/continuous deployment (CI/CD), and container orchestration.
- ❖ Implemented a CI/CD pipeline integrating Jenkins with Git, Docker, and Kubernetes, and automated configuration management using Ansible.
- ❖ Utilized monitoring tools such as Prometheus and Grafana to ensure optimal system performance and feedback for continuous improvement.

SOFT SKILLS

- Strong problem-solving and analytical abilities
- Excellent collaboration and communication skills
- Effective time management and multitasking
- Leadership and mentorship qualities
